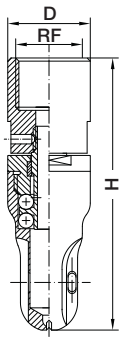
SMALL DIMENSION WASHING HEADS

REACTION DRIVE

UBF range heads have been designed as small dimensions devices to be operated through small dimension openings and perform such processes as the inside cleaning of any other container where standard washing heads cannot be used. Typically used for cleaning beer kegs, containers for soft drinks or small bore pipes. The device passes through a one inch (25.4 mm) diameter bore.



Material B31 Aisi 316L Stainless steel

EXCLUSIVE TRUMPET ORIFICE

The new trumpet design of the side orifices allows to obtain a more efficient fan shaped jet, with a well defined spray angle, improving considerably the washing action. Italian and International Patents applied for.

Code	RF inch	Capacity at different pressures lpm bar					Spray pattern deg		Dimensions mm	
		2	3	5	10	12	180L	270D	H	D

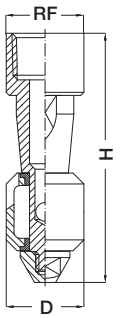
UBF A

Designed for cleaning processes in small bore piping or small size containers and available in a range of different plastic materials and special alloys, as well as with several spray angles.



Materials D81 PVDF (standard)
B31 AISI 316L Stainless steel
E1 PTFE (Teflon)
L61 Hastelloy C22

Code	RF inch	Capacity at pressures lpm bar			Spray pattern deg			Dimensions mm

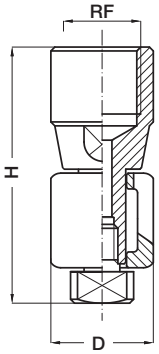
UBF S

Designed for cleaning processes in very small bore piping or containers, down to 15 mm diameter. The device is available in different materials as well as spray angles.



Materials B31 Aisi 316L Stainless steel
E1 PTFE (Teflon)
